

Sample Blood Test Report

Patient Name: John Doe

Age: 32

Date: 2025-01-15

Complete Blood Count (CBC)

Hemoglobin: 11.2 g/dL (Low)

WBC Count: 13,200 / μ L (High)

RBC Count: 4.5 million/ μ L (Normal)

Platelets: 150,000 / μ L (Normal)

Hematocrit (HCT): 34% (Low)

Blood Glucose

Fasting Glucose: 168 mg/dL (High)

Comments

- Elevated WBC suggests possible infection.
- Hemoglobin slightly low indicating mild anemia.
- High fasting glucose suggests poor diabetes control.

Recommendation:

Consult a physician for further evaluation and treatment.
